

# Angling Society

Hello, my name is Alfredo, I am 55 years old and I come from Aldeagrande.

I have lived in this wonderful place my whole life. At the weekend, just like my father did, I usually go fishing in the river. There several families get together and have a great time. I have been fishing for trout in this river for over 40 years, but in recent weeks I haven't had a single bite! Other anglers and I have noticed that there is more and more rubbish on the banks of the river and that the water is getting murkier.

The trout need clean, clear water to survive, like our river was before! We do not know what is happening, so we want to appeal to the authorities and inform them of this problem.
